

Mt. Vernon Christian Church was founded in August of 1842 and remains the second oldest Christian Church in Georgia. The official church building has been modified and reconstructed five times since the formation of the church. The present building was constructed in 1941.

This race is held in memory of Frank Baccus, a life-long member of Mt. Vernon with over 80 years of servitude. We dedicate this race to his service, sacrifice and dedication to the church and community.

This year marks the 15th running of the Frank Baccus Easter 5K as an annual event held on the Saturday before Easter.

On behalf of every member of Mt. Vernon, we welcome you and hope you will continue to participate in the years to come.

Thank you on behalf of Mt. Vernon Christian Church for your participation and support of today's event.
